

Cambridge Speed Skating News

June 2007

Dryland

Dryland training takes place every Thursday evening beginning at 5:30 p.m. at Southwood until July 5th. A new location will be confirmed shortly to continue the dryland training over the course of the summer.

Summer Ice

Summer Ice began on Saturday, June 2, 2007 and will run through to the end of July. We are currently registered at capacity.

OSSA Speed Skating Camp

The OSSA Speed Skating Camp is close to having 150 skaters registered. Organization meetings are still taking place to help put everything into place for this camp. If you have some time during the week of August 20th, we would gladly welcome you assistance in one of the many volunteer roles available.

Shop and Support

This fundraising program is still available throughout the summer for the membership. If you have not registered yet, please consider doing so as this has to be the easier fundraiser possible. You purchase the gift card in the

denomination of your choice and that's exactly what you will receive.

During the summer months the majority of our members are choosing to have their gift cards sent to their homes directly for easier delivery and pick up.

Remember 50% of the funds raised will go directly back to you.

Try B 4 U Join

We will be once again hosting a try before you join program later in the summer. This program was successful last season, introducing the sport of speed skating to the community at the Cambridge Mall. The date will be confirmed in the next little while.

Please visit our website frequently for up to date information regarding our club and registration.
